PROFESSIONAL SUMMARY

Technology Enthusiast focused on transforming ideas into real-world digital products. Experienced in AI-assisted development, web applications, Android applications, IoT systems, rapid prototyping and product development. Passionate about building practical solutions that create impact.

EDUCATION

Aditya Degree College (2025 – 2028)

Tadepalligudem

Bachelor of Science (B.Sc.) in Artificial Intelligence

1st Year Sem -1 (8.5 CGPA)

Bhasyam Junior College (2023-2025)

Guntur

Board Of Intermediate Education, Andhra Pradesh

M.P.C – (84.5%)

Roots School of Essential Faculties (2022-2023)

Tanuku

Board Of Secondary Education, Andhra Pradesh

10th Class – (86.66%)

TECHNICAL SKILLS

- AI Development
- Prompt Engineering
- Web Development
- Android Application Development
- ESP32 & IoT Systems
- Arduino
- API Integration
- UI/UX Design
- Git & GitHub
- Firebase & MongoDB

PROJECTS

AyurPulse

IoT healthcare monitoring system integrating ESP32, GSM, GPS, pulse sensors, temperature monitoring, SpO2 tracking and Ayurvedic health analysis.

ShareFood

Food-sharing platform designed to connect donors with people in need while reducing food waste.

FARM Shop

Digital marketplace enabling farmers to sell products directly to customers through an online platform.

GlobalBuy India

Cross-border shopping platform helping Indian users purchase products from international markets.

Any Goods Exchange(AGE)

Any Goods Exchange (AGE) is a full-stack marketplace platform that allows users to buy, sell, and exchange products online.

The platform includes secure authentication, real-time product listings, wishlist management, seller profiles, chat functionality, and an admin dashboard.

Built using React, Vite, and Firebase, AGE delivers a modern, responsive, and real-time user experience for online trading.

ACHIEVEMENTS •

Built multiple real-world AI-assisted web and Android applications.

- Developed IoT-based healthcare and monitoring systems.
- Created product concepts from idea stage to working prototypes.
- Actively exploring AI tools, startups and emerging technologies.

INTERESTS

Artificial Intelligence, Product Development, IoT Innovation, Startup Building, Mobile Applications, Emerging Technologies
